EDUCATION

Anil Neerukonda Institute of Technology and Sciences

B.Tech in Electrical and Electronics Engineering | CGPA : 8.58/10

2023 – Present

Visakhapatnam, India

Bhashyam Junior College

Class 12 | Percentage : 90.3%

2021 – 2023

Andhra Pradesh, India

Bhashyam High School

Class 10 | CGPA : 10/10

2020 – 2021

Andhra Pradesh, India

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, SQL

Frontend Technologies: React.js, HTML, CSS

Backend Technologies: Node.js, Express.js, REST APIs, WebSockets, Socket.IO

Databases: MongoDB, SQL

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, n8n

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

CodeSync – Real-Time Collaborative Code Editor | [Code](#) | [Live](#)

- **Tech Stack:** React.js, Node.js, Express.js, Socket.IO, MongoDB, Monaco Editor.
- Built a real-time **collaborative code editor enabling multiple users to create and join rooms, edit code simultaneously, and collaborate in real time.**
- Implemented **WebSocket-based synchronization** using Socket.IO for real-time code updates, user presence, and room communication.
- Integrated **Monaco Editor** with multi-language support and developed REST APIs for room and user management.
- Deployed the full-stack application with separate frontend and backend services for reliable real-time collaboration.

MyBookHub – Online Book Trading & Print Services Platform | [Code](#) | [Live](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Nodemailer, Razorpay.
- Built a full-stack **MERN platform** supporting book trading, donations, printing services, and order management.
- Implemented **JWT authentication** and 10+ RESTful APIs for secure user, book listing, printing, and order operations.
- Integrated **Cloudinary, Nodemailer, and Razorpay** for media storage, email notifications, and online payments.
- Onboarded **300+ users** by building responsive interfaces, category-based book discovery, and filtering features.
- Designed scalable backend services and database schemas to efficiently manage **users, books, print requests, and orders.**

Instagram AI Customer Support Automation

- **Tech Stack:** n8n, Meta Graph API, LLMs, Google Sheets, Webhooks, REST APIs.
- Built an **AI-driven customer support workflow** to process Instagram messages and generate automated responses.
- Connected **Meta Graph API webhooks** with n8n to capture and process real-time customer messages.
- Implemented **conversation context and knowledge-base retrieval** for consistent and relevant AI responses.
- Designed an **AI escalation mechanism** to route complex queries to human support and log conversations in Google Sheets.

ACHIEVEMENTS

- Solved **600+ DSA problems** across the platforms LeetCode and GeeksforGeeks.
- **Winner of Business Combat 2k26** organised by the Department of ECE, ANITS.
- **Runner-up in HackVision 2k25** organised by the Department of EEE, ANITS.

POSITIONS OF RESPONSIBILITY

- **Secretary, ANITS NSS Unit–4:** Led community service activities, coordinated volunteer teams, and organized social service programs in collaboration with faculty coordinators.
